I Dislike Feeding Sheep.

When I go to feed the sheep they try to jump the fence to get the hay bell before it is over the fence. Maybe they will stay inside the pen. Then I would like to feed them. Right now I don't like to feed them at all. I hope that they will stay in the pen but no they won't stay in the pen at all. They want to get out and eat my dog's food.

When you put a hay bell in with them they will eat the hay bell the first thing when you put it in with them, maybe they will get full and save the hay bell. Once in awhile they will keep it for + two or three days. One of these days when my little brothers go to feed them they will jump the fence on them.

Once the first hay bell is gone they won't another. Maybe they will stop eating like little pigs. Then I would like to feed them. One of these days I wish that they will stop jumping the fence. After the second one gets hay bell all over the ground they won't eat it off the ground. They like to eat it when it's in a bell.

When the sheep don't eat it off the ground I have to go out there and pick it up. Then I have to put it inside at tier. Then they clean it up.

May be they will eat it off the ground.
I hope when it water them that they will
wont jump the fence, No they still jump the
fence.

I wish that the sheep wouldn't eat all of
their hay. Where I don't have to go out there.
Maybe the hay will last more than a week.
If it rained it will get moldy and nasty. One day,
the sheep will not eat a hell hay bell in one day.
It may last for awhile, Thats why I dislike
doing that chore.

May be the will be get to act like
sheep instead of pigs. I wish that the sheep
will act like sheep instead of pig because
sheep are neeter then pigs. Sheep are fun to
play games with. Once they know that you
they like to phaze you around.
